

## Perform Legal Audit

**Business Owner Action Item:** Engage Hibiscus Legal to perform a legal audit.

The following is a list of documents that will be requested and reviewed by the Buyer in connection with the Buyer's legal due diligence. This list is intended to provide a comprehensive list of all of the initial information that the Company should prepare in preparation for the sale.

**Why is This Important?** The Buyer will request these documents and information during its legal due diligence of the Company. A failure to provide legal information may lead to a lower valuation of the Company.

**In My Experience:** During a legal audit, the Company will identify legal risks and issues that negatively affect its valuation. If the legal risks and issues are identified in the pre-sale process, then the Company can usually mitigate any impact to the valuation.
